The event features presentations from senior leadership on the Company's strategic priorities, including key commercial and value chain initiatives, the continued integration of Viterra, portfolio optimization and capital allocation goals. The Company has updated its EPS mid-cycle baseline to approximately \$13 and will discuss the drivers of the update during the event, as well as provide a growth framework with an expected increase to its EPS baseline to at least \$15 by the end of 2030.

### Capital Allocation Framework and Share Repurchase Plan

As part of Bunge's disciplined and balanced approach to capital allocation and commitment to shareholder returns, Bunge has announced a target to returning a minimum of 50% of its discretionary cash flow to shareholders through dividends and share repurchases across the cycle. In connection with this target, Bunge's Board of Directors has authorized the repurchase of up to \$3 billion of Bunge's common shares (the "Repurchase Plan").

The repurchases could include purchases pursuant to a written trading plan in accordance with Rule 10b5-1 under the Securities Exchange Act of 1934, as amended, which allows companies to repurchase shares of stock at times when they might otherwise be prevented from doing so by securities laws or under self-imposed trading blackout periods. The timing and number of shares repurchased will depend on a variety of factors, including, but not limited to, share price and market conditions, and the program may be suspended or discontinued at any time without notice.

Forward looking statements include all statements that are not historical in nature. We have tried to identify these forward looking statements by using words including "may," "will," "should," "could," "expect," "anticipate," "believe," "plan," "intend," "estimate," "continue" and similar expressions. These forward looking statements are subject to a number of risks, uncertainties, assumptions and other factors that could cause our actual results, performance, prospects or opportunities to differ materially from those expressed in, or implied by, these forward looking statements. The following factors, among others, could cause actual results to differ from these forward looking statements:

- the impact on our employees, operations, and facilities from the war in Ukraine and the resulting economic and other sanctions imposed on Russia, including the impact on us resulting from the continuation and/or escalation of the war and sanctions against Russia;
- the effect of weather conditions and the impact of crop and animal disease on our business;

### **Forward-Looking Guidance**

---

With respect to our forward-looking guidance no reconciliation between a non-GAAP measure to the closest corresponding GAAP measure is included because we are unable to quantify certain amounts that would be required to be included in the GAAP measure without unreasonable efforts, and we believe such reconciliations would imply a degree of precision that would be confusing or misleading to investors. In particular, a reconciliation of EPS baseline to the closest corresponding GAAP measure is not available without unreasonable efforts on a forward-looking basis due to the high variability, complexity and low visibility with respect to the amounts required to reconcile such measure. The unavailable information could have a significant impact on the company's future financial results.
